

## FOIL NEW PLOT AGAINST CZAR

Russian Police Said to Have Unearthed Another

## CONSPIRACY TO KILL CZAR

Mrs. Ragozinnikova to Die—Young Woman Who Yesterday Assassinated Gen. Maximoff Tried and Condemned by Court-martial.

St. Petersburg, Oct. 30.—It is reported that the police have discovered another plot against the life of Emperor Nicholas. A high official is said to have been arrested in this connection, but the police and gendarmes officials of St. Petersburg profess to know nothing of the matter, and intimate that the rumors probably were due to the large number of arrests and searches made in connection with the assassination Monday of Gen. Maximoff, director of the Department of Prisons of the Ministry of the Interior. This resulted in the capture of several accomplices of Mrs. Ragozinnikova, the assassin who comes from the province of Perm, and is the daughter of a teacher in the Imperial Conservatory of Music.

The young woman was taken to the fortress of St. Peter and St. Paul yesterday. She was tried by court-martial and was sentenced to be executed by hanging.

Her desperation is shown by the fact that when she was examined at the police station, it was found that she carried inside her corset a case containing thirteen pounds of high explosive—a charge powerful enough to blow the entire building to pieces.

## Russian Garrison Has Hot Battle With Rebels

St. Petersburg, Oct. 30.—Five soldiers were killed and a score wounded as the result of a mutiny which has just been suppressed after fierce fighting at Vladivostok. The ringleaders are under arrest and will be shot. The mutineers complained they were underpaid, subjected to dreadful hardships and kept in exile far from home.

When an effort was made to force them to return to duty they seized their officers and opened fire on the barracks. The loyalists repelled with machine guns, dispersing the rebels after a sharp encounter.

It is believed that the actual number of casualties is much larger than officially announced.

## WU TING FANG GIVEN FAREWELL BANQUET

Dinner in His Honor Prior to His Departure for Post in Washington.

Shanghai, Oct. 30.—The foreign community gave a farewell banquet here to Wu Ting Fang, the newly appointed minister to the United States. A number of foreign and Chinese women were present, among the latter Lady Wu.

Wu Ting Fang described Shanghai as the New York of China. He emphasized the importance of social intercourse between foreigners and Chinese.

## QUAKE AND PANIC

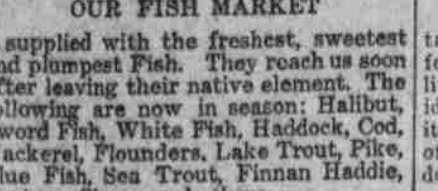

Violent Shock Again in Calabria Last Night.

Barcellona, Calabria, Oct. 30.—There was a violent shock of earthquake Monday night.

It was experienced with particular severity at Monteleone and Sinopoli, the inhabitants of which were thrown into a panic.

## Piles Cured in 6 to 14 Days.

PAZO OINTMENT is guaranteed to cure any case of Itching, Biting, Bleeding or Pruritus Piles in 6 to 14 days or money refunded. 60c.

## CITY FISH MARKET

## FIRE Insurance Rates REDUCED

Seventeen old reliable Stock Companies and five Mutuals. Take your choice. Call and investigate. Any competition met, in companies that have had an experience of from 25 to 100 years.

J. W. DILLON,

3 and 4, Bolster Block, Barre, Vt.

## Peptiron Pills Hood's Pills

After-dinner pills, purely vegetable, easy to take, and, of course, do not cause constipation. Sold everywhere. It Made Hood's Pills Famous.

## HAL CHASE PLAYING OUTLAW BASE BALL

He Keeps on With San Jose Team Regardless of the Edict of the National Commission.

Major league ball players in the far west are giving the merry "Hal" to the national commission, which recently ruled that athletes who perform in the California State League will be subjected to heavy fines and declared ineligible if they persist in picking up winter money in that way.

Several big leaguers out on the Pacific coast have disregarded the injunction, among them Hal Chase and George Moriarty of the Yankees, and Elmer Strickland of the Brooklyn team. Sam Merets, Jimmy Whalen, formerly of the Yankees, and Wolfers of the St. Louis Nationals are playing in this league also. Chase and Moriarty are members of the San Jose team. They can be assessed \$100 for each infraction of the base ball law as laid down by the national commission. The players declare the commission is going too far when it presumes to interfere with a player who has fulfilled his contract with a league club and is playing off-season ball in order to meet living expenses. They declare that rather than submit to fines they will remain where they are for a season, the California state having been adjudged an outlaw league.

Frank Arellanes, the pitcher signed by Griffith on Chase's recommendations, is a member of the San Jose team.

Hal Chase is probably the greatest of the ball players now wearing a state league uniform. He is with the San Jose team. Chase is not willing to say definitely what attention he will pay to the ruling of the national commission, but he intimates that he will ignore it.

If he wants to stay with the San Jose team, Manager Mayer has promised to set him up in a business of his own and keep him on the base ball payroll. If Chase kicks over the traces, the national commission will lose the greatest first baseman in the world, unless it sees fit to rescind its harsh ruling against the California State League. The chances are he will remain with the state league. He is one of the most independent young men that ever donned a base ball uniform, and he will do just about as he pleases now and hereafter.

He was not very strong in favor of returning to New York last season, and, in fact, he did not return until after the season had opened.

## GOT 450,000 EGGS.

Treat Stripping Station at Chittenden Dam Has Been a Success.

Rutland, Oct. 30.—The government fish cutters who have been stripping brook trout of their spawn at the outlet of Chittenden dam in order to obtain eggs to rear the fish artificially report that they have secured about 450,000 eggs. The spawning season is now practically at an end. The eggs were practically all obtained from one stream. Traps were set in another brook but trout had nearly finished spawning when this was done so that the results were not satisfactory in the second attempt.

The station, which was started through the interest of Senator Redfield Proctor in fish culture, has given satisfaction and, if anglers who are interested in protecting trout in the pond favor the move, it is probable that permanent stripping station will be founded at the pond next season. Should this be done traps would be set in several of the brooks running into the pond and a much larger number of fish stripped than was the case this year. In return for the spawn taken the government is to give a fingerling trout to stock the reservoir.

## EX-CROWN PRINCESS LETS KING HAVE HER DAUGHTER

Surrenders Princess Anne Monica Pia to Saxon Monarch.

Florence, Italy, Oct. 30.—Signora Toselli, the ex-crown princess of Saxony, having agreed to surrender her daughter, Anne Monica Pia, to the king of Saxony, a lawyer started with the little princess yesterday for Tyrol, where the child will be given over to a representative of King Frederick.

## GEN. GRANT WOULD WIPE OUT CRIME LIKE DISEASE.

Not Christianlike to Put All Incurable to Death, Though They Ought to Be, Says He.

Windsor, Ct., Oct. 30.—Crime should be wiped out by the same hard scientific methods that the army has used in wiping out smallpox and fever, said Gen. Fred D. Grant in making his address as president of the Grant Family Association at its reunion here.

Gen. Grant further said: "There are a few idle citizens, but they are generally men like college professors and clergymen, who live secluded lives. Men in general may believe in ideal citizenship. They may practice it generally, but the reason that many of them do not go wrong is because they do not have the opportunity."

"There have been many accusations lately, in our public life, but the men who have called them forth have usually done only what many of us would have done, had we the opportunity. So, instead of talking of ideal citizenship, we had better form such a plan of practical citizenship as will prevent the average smart men from getting the better of the others."

## MARCHING ON THE UTE CAMP.

Troops Expect to Reach There By Tonight.

St. Paul, Minn., Oct. 30.—A special to the Pioneer Press from Pierre, S. D., says that parties from the Cheyenne Indian agency report that troops are now marching toward the Ute camp and expect to reach there tonight. The Utes, says the despatch, are well armed and say they will fight if any attempt is made to compel them to work or to send their children to school. A special from St. Louis, S. D., says that late reports indicate that the Sioux Indian police already have the Utes under control.

## STILL AGAINST HEARST

No Change in the Views of the President

## HE IS DISGUSTED AT THOSE

Republicans Are Likely to Repudiate the Ticket—This Believed Necessary for the Good Name of the Party.

Washington, Oct. 30.—No Republican in Washington has any doubt about the attitude of the president toward the Parsons-Hearst fusion on the county ticket in New York City. To say that he is thoroughly disgusted with the whole arrangement is to put it mildly. Although no official statement to this effect has appeared, it must be as clear to the friends of Herbert Parsons as to the friends of the president that he strongly disapproves of the fusion. The day he returned from the Louisiana campaign he lost no time in making it known through one of his close friends that Parsons had not consulted with the White House before he began trading with Hearst.

It is generally realized here that the president's eagerness to "set himself right" with his New York friends was only another way of saying that had Mr. Parsons asked the advice of him he would have been warned against Hearst. William Randolph Hearst is today the same pet abomination of Mr. Roosevelt that he was last year when the president asked Mr. Root to go to New York and exhortate the New York editor in his speech at Utica. Even though he will not officially denounce the Parsons-Hearst alliance, Mr. Roosevelt has many ways of letting his views be known. If he could "stand for it," Mr. Parsons would be to him a man of straw. The president's disgust with the fusion ticket is the only fact known that this Republican blunder had the sanction of the administration. Republicans from various parts of the country have been in Washington since the Hearst-Republican fusion ticket was put in the field, and not one of them has had a good word to say for it. President Roosevelt appeared to them to be both amazed and indignant that it should have been supported in New York and elsewhere that he had been consulted and had given his approval before the deal was made.

Republicans who have recently been to Washington are hopeful that their party members in New York City will absolutely repudiate the fusion ticket at the polls and thus clear the party of the suspicion that it is in any way in sympathy with Hearst, his political principles or his political aims. As one Republican politician of prominence yesterday expressed it: "New York Republican voters must repudiate the deal. Parsons has made to clear the good name of the party in the state and to relieve us all of the implication that we have anything in common with Hearst or Hearstism."

## HAZARDS MUST PAY \$14,000 FOR INJURIES TO STUDENT.

Court So Decides After Hearing of the Victim's Experience.

Kewanee, Ill., Oct. 30.—For having Charles Stoner, a student at a Bradford school, five young men of Bradford must pay \$14,000 damages, according to a verdict brought in last night by a jury. The defendants are William Real, Earl Lavin, Arley Harwood, Earl Horva, and Francis Lott. They are said to have tied Stoner to a tombstone in a cemetery. Stoner was so severely frightened that in his attempts to get free he pulled the tombstone over on himself, breaking a bone in his leg. He was confined in a hospital a nervous wreck for several weeks.

## HAZING OF NEAL STIRS PORTLAND.

Cruelly Beaten at Initiation the Charge—School Societies May Be Suppressed.

Portland, Oct. 30.—An investigation was begun yesterday by the Portland school board into the treatment accorded Neal, the 15-year-old son of Ernest E. Brewer, during his initiation into a high school secret society. It is alleged the boy was taken to Evergreen cemetery in the night time, where he was so badly beaten that he was unable to leave his bed the next day. At the meeting of the school board a sub-committee was appointed to investigate the case and to devise some means for suppressing the school fraternities.

## Mrs. Pepper Held in \$3,000.

New York, Oct. 30.—Mrs. Mary S. Pepper Vanderbilt, the psychic confidante of "Little Bright Eyes," "Thundercloud" and "Dr. Temple" of the spirit world, was arraigned in the Adams street police court at Brooklyn yesterday and held in \$1,000 bail charged with having stolen a house and lot.

## HEAVY WASH-OUT.

Electric Railway Traffic at Springfield Delayed By It.

Springfield, Oct. 30.—The heavy down-pour of rain of Sunday, Monday and Tuesday brought the water in Black river up to the highest point it has reached in years at this season of the year. Traffic on the Springfield electric railway was delayed a few hours by a wash-out at Gould's Mills, two miles below this village. The dirt was washed from under the rails for a distance of fifty feet. Finally the rails were shoved up and traffic was resumed.

## DAUGHTERS CUT OFF BY WEALTHY FATHER.

Their Cool Treatment Broke the Heart of Dr. J. F. Hall Who Then Left Fortune to a Favorite Niece.

Denver, Colo., Oct. 30.—After an unsuccessful attempt to effect a reconciliation with his family, Dr. J. F. Hall, the eccentric pioneer druggist, who died in a little shack at Trinidad, has left his fortune of more than \$300,000 to a favorite niece in Maine, and cut off two daughters in California and two divorced wives without a penny.

Hall is said to have had his daughter in California if she had any respect for him and to have received the reply: "I could have respect and use for some of your money."

This broke the old man's heart, and leaving the house he vowed to cut off both his children without a cent and never to see them again. According to the statements of friends, he has kept his vow.

The lonely man's resentment took this form of expression. Hall was known in Trinidad as a prosperous druggist, and was generally supposed to have but a few thousand dollars gained by years of frugality and industry.

Only a few intimate friends knew that he was one of the principal owners of the Richardson Drug company and that he owned several fine fishing boats plying off the coast of Maine. It was known that he owned several fine residence sites in Trinidad, but the bulk of his fortune was invested in the east.

Hall separated from his first wife soon after coming to Trinidad, nearly 20 years ago. He married again and divorced his second wife two years ago.

Little is known of his first wife or of his children, but it is said they are now living in California. About a year ago Hall went to California in the hope of becoming reconciled with his two children. He was heartbroken at his cold reception and was a changed man after his return. Formerly an active politician and an energetic business man, since then he lived the life of a recluse in his little apothecary shop.

The niece who is benefited by his wealth is the daughter of a brother, Asher Hall, living at Blackhawk Mills, in Maine, about eight miles from Bangor, and she is said to have been the only person for whom he showed any affection in late years. Her name is Clara E. Hall, and she is a school teacher, aged 28.

Every can of Argo Red Salmon contains one pound net. It is always guaranteed to be full weight.

## NEW BEDFORD BOY A WALKING MUSEUM.

Finally Gives Up a Zoological Collection That Bothered His Digestion.

New Bedford, Mass., Oct. 30.—Eleven-year-old Joseph Demaris has been a walking museum of natural history for half a dozen years. Nobody suspected the boy's real importance as a custodian of zoological curiosities until Dr. C. R. Campbell began work on the case. The doctor succeeded in getting from the boy's stomach at least 100 creatures of different varieties, varying in size from one-quarter of an inch to a lizard-like creature five inches in length. Dr. Campbell said yesterday:

"I didn't have the least idea of the presence of these things until we found them. I don't know now what to call them, and am sending them away to the Baltimore college of physicians and surgeons to get their opinion."

Mrs. Demaris said: "We don't know how to explain it, except that he may have swallowed these creatures when he used to go berrying with us up in Vermont."

## SELL REAL ESTATE TO PAY FOR EARL'S SON.

So Brokers Say of Mrs. McCreery, Who Demands Cash For Her Property Here and Is Soon to Marry Again.

New York, Oct. 30.—Mrs. Edith K. McCreery is selling her downtown real estate, and real estate brokers say laughingly that she "needs cash to pay for her earl's son." Mrs. McCreery, the beautiful wife of the daughter of the late Col. Lawrence Kip; her mother was a Miss Leffland, Mrs. McCreery inherited old storehouses, flats and business houses on Water and other ancient streets; houses that have been in the family many years and have never been brought up to date.

Douglas Holston, President Roosevelt's brother-in-law, has sold 10 houses for Mrs. McCreery for about \$300,000. She insisted upon being paid cash; in fact, she could have sold for slightly higher prices had she been willing to take mortgages in part payment. It is understood that she wants ready money because she is about to build a very handsome house in London, where, after her marriage to the Hon. Henry Thomas Coventry, third son of the Earl of Coventry, she and her husband will reside. She has residences at 52 South Audley street, London, and at 18 East Seventy-seventh street, this city.

Mrs. McCreery married Richard S. McCreery in Great Britain, this city, in 1894. She divorced him in 1904, receiving the custody of their son and an allowance of \$3,000 a year to maintain and educate him. She asked no alimony. Her engagement to "her earl's son" was announced a fortnight ago.

## ROAD MUST ECONOMIZE

All Construction Work Stopped and the Train Crews May Later Be Reduced—Pennsylvania Railroad Denies Laying Off Men.

Omaha, Neb., Oct. 30.—The Union Pacific railroad yesterday discharged between 4,000 and 5,000 workmen. This is official and is authenticated by General Superintendent Park and T. M. Orr, assistant to the vice-president. The discharged men are from the construction department and every piece of construction work on the entire system is abandoned. The work on the new shops in Omaha has been temporarily abandoned.

Mr. Park said: "We expect a curtailment of business and as fast as this occurs we will lay off train crews. Our orders are to discontinue with every available man and to stop every piece of construction work on the system. We are ordered to cut expenses in every possible way."

These orders came from New York.

## MANY MEN LOSE JOBS

Between 4,000 and 8,000 U. P. Employees Discharged

## ROAD MUST ECONOMIZE

All Construction Work Stopped and the Train Crews May Later Be Reduced—Pennsylvania Railroad Denies Laying Off Men.

Omaha, Neb., Oct. 30.—The Union Pacific railroad yesterday discharged between 4,000 and 5,000 workmen. This is official and is authenticated by General Superintendent Park and T. M. Orr, assistant to the vice-president. The discharged men are from the construction department and every piece of construction work on the entire system is abandoned. The work on the new shops in Omaha has been temporarily abandoned.

Mr. Park said: "We expect a curtailment of business and as fast as this occurs we will lay off train crews. Our orders are to discontinue with every available man and to stop every piece of construction work on the system. We are ordered to cut expenses in every possible way."

These orders came from New York.

## NOT TO DISCHARGE 20,000 MEN.

Pennsylvania Railroad Company Denies Current Report.

Philadelphia, Pa., Oct. 30.—The following statement was given out yesterday at the offices of the Pennsylvania railroad company:

"There is no truth in the statements that twenty thousand men are to be discharged by the Pennsylvania Railroad company. Nothing of the kind has ever been discussed. As the traffic for October is eleven per cent. greater than for the same month last year, which will make the movement for the month the largest in the history of the company, any material reduction in the forces would not be practicable."

## PEACE AT HAND IN TELEGRAPH STRIKE.

Despite Company's Denials, Small Says It Will Soon Be Shown.

New York, Oct. 30.—Despite formal statements issued by the Western Union and Postal Telegraph companies that they would not treat with the striking telegraphers and would not make any kind of settlement, former President S. J. Small of the Commercial Telegraphers' union of America, said that at a mass meeting of striking operators yesterday in Clinton Hall, peace would be shown to be at hand.

## Going Back to Work.

New York, Oct. 30.—There were evidences of a general break in the ranks of the striking telegraph operators yesterday, as large numbers applied to the companies for reinstatement. One of the companies has received 30 applications within the last 24 hours. The cause of the break does not appear to result from any formal or concerted action, but from gradual disintegration and a feeling among the individual strikers that nothing further is to be gained from the companies. The applicants are being considered on their individual merits and about 60 per cent. have been accepted, including some who have actively agitated against the companies.

## JUDGE GROSSCUP OF THOSE INDICTED.

Warrants For Arrest of Officials of Mattoon Railway as Result of a Wreck.

Charleston, Ill., Oct. 30.—Seven bench warrants were issued from the Coles county circuit court yesterday for the arrest of officials and employees of the Mattoon City Railway company, operating the Charleston and Mattoon Interurban line, as a result of a wreck near this city last August, in which 18 passengers were killed.

Federal Judge Peter S. Grosscup of Chicago is among those indicted. The others are Directors Underwood, Sampson and Ross of Chicago; President E. A. Potter, Supt. Moore and Motorman Charles Botta.

Motorman McClara, who the company alleges, was responsible for the accident by running an express car between stations without orders, has not yet been indicted. Criminal negligence tending to produce manslaughter is the charge against the seven men named. The bonds of the indicted men were fixed at \$5,000 each, and security was furnished in each case.

## THE SECOND CROP POTATO.

The second crop potato has come to stay. The yield from such is not materially greater, but the vine is more vigorous, resists insects better, matures earlier and there are very few sills, says a southern writer in Century Gentleman. In the same cellar the sprouting of the spring and fall plantings of the same kind varies six weeks at least, and all potatoes intended for use are for this reason fall grown.

Another advantage is the fact that when a large second crop potato is planted it is not prone to spring more than two eyes, and to find a three stalk root even in a careless planting is an effort. This is the reason there are so very few culls. The northern potato nature about with our second crop. It has won general acceptance in the north, and theoretically it ought to be good. It has been tried by hundreds of planters side by side, but the consensus of opinion is that in every material trial the native seed is superior. The second crop seed is not disposed to run out. The writer still continues to plant the same stock he first purchased, nearly or quite twenty years ago, and the last planting is as vigorous and healthy as the first.

## SHOT PROVES FATAL.

Charles Cummings of Littleton, N. H., Dies From Wound.

Littleton, N. H., Oct. 29.—What proved to be a fatal shooting accident occurred at Forest Lake Sunday afternoon. Edward Tarriss, Walter Blake, William J. Cummings and son, Charles Cummings, were spending the day at the Cummings' cottage at the lake, and Walter Blake and Charles Cummings rowed across the lake to try their luck for game on the opposite shore. As they landed Charles was in the end of the boat nearest shore. He jumped on shore, turned around and grasped the gun half way down the barrel to take it out. The trigger caught on one of the seats, sending the full discharge of shot into his left side, just over the heart, making a wound over two inches in diameter.

Young Blake filled the wound with two pocket handkerchiefs to stop the flow of blood and rowed for the opposite shore, where the injured boy was placed on a mattress in a carriage and brought to his home here, seven miles from the scene of the accident. Physicians and a nurse were summoned and everything possible done to relieve him, but he died about 10:45 Sunday evening. He did not lose consciousness during the long drive home and was conscious until a short time before his death.

Charles Cummings was born at Bethlehem, Dec. 28, 1889, and was a graduate from the Littleton high school last June. He was exceptionally bright in his studies and was a favorite with his associates, and the family have the sympathy of the community. He is survived by his parents, one brother, Edward J. Cummings who is in the law office of Hollis & Streeter at Concord, and three sisters, Mrs. Fred A. Moore, the Misses Alice and Catherine Cummings, who reside in Littleton.

## GREENE AND GAYNOR LOSE FIGHT FOR HEARING.

Must Serve Four Years Unless The Supreme Court Grants Writ.

Montgomery, Ala., Oct. 30.—B. D. Greene and John F. Gaynor, contractors, who were convicted of defrauding the government out of a large sum of money have been denied a rehearing by the United States circuit court of appeals. Unless the defense procures a writ of certiorari from the United States supreme court the defendants will have to spend four years in the penitentiary, besides paying a fine of \$2,000,000 each. Greene and Gaynor were convicted of frauds in connection with harbor improvements at Savannah, Ga. They are now confined at Macon, Ga.

## SEATED DESPITE HIS DARK RECORD.

Manila Assembly Takes in Adriatic, Who is a Notorious Character.

Manila, Oct. 30.—The assembly will soon take up the protests against the election of Dr. Dominador Gomez and Fernando Guerrero, the Nationalist leaders elected from Manila. Lively debates are anticipated.

Yesterday, after an overwhelming vote, it seated Adriatic, who is a notorious character, convicted of deception and fraud in his capacity of attorney and disbarred by the supreme court in 1905. The Governor-General accuses him of violation of the assembly election law.

## Argo Red Salmon can be served on any table. It can be served as it comes from the can, or prepared in many palatable dishes.

## DR. DAY'S DEBTS PREYED ON HIS MIND.

Not Aid Him to Pay Even Bills contracted for Honeymoon, 'Tis Said.

New York, Oct. 30.—Dependancy over money matters and the poor conditions of his mother's health are now believed to be the reasons why Dr. Albert Cushman Day committed suicide last Saturday in the woods at Rosindale, Boston.

He served some bills, contracted while preparing himself to become a physician. Although he had received financial aid from his mother, it was not sufficient to meet all of his expenses, and the bills contracted on his short honeymoon remained to be paid.

It is said he went to his mother while on his honeymoon and sought further assistance, thinking she could help him now, as in the past. The mother, it is now claimed by a friend of the family, could not possibly vouchsafe the aid.

She also told her son, it is declared, that she did not think his marriage at this time had been advisable, because she was ill and without proper support.

The body of Dr. Day was brought to the home of his mother in Brooklyn yesterday by Gustavus Wilson, his brother-in-law.

Mr. Wilson was not convinced that Dr. Day had killed himself until he had fully investigated the finding of the body on Saturday and told that to Mrs. Callahan, mother of the physician's bride, and doctors at the Boston City hospital.

Mrs. Day lives at No. 300 Nichols avenue, Brooklyn. Her husband, who was a prominent lawyer in Manhattan, died a year ago at the age of 76 years, leaving only a small sum to the widow.

## WILLING TO HAND OVER THE MONEY.

James Allan, Millionaire Ship Owner, Preaches Socialist Doctrine.

London, Oct. 30.—James Allan of the Allan shipbuilding line, who is a millionaire, debated public affairs as a Socialist candidate in the municipal elections at Glasgow. He said he was willing to hand over his possessions to the nation as soon as the state was organized to receive them.

He added that he could not practice Socialism alone, but must wait the necessary fundamental change in the social system.

## STOCKS ARE WEAK AGAIN

Money Tight and Speculation Discouraged

## WITH RENEWED PRESSURE

And Heavy Forced Liquidation—Numerous Low Records Made for the Year—General Financial Situation Shows Steady Gain.

Boston, Oct. 30.—The scene of interest in the financial situation has shifted, at least in part, to London, Paris and Berlin. The heavy engagements of gold for the United States, aggregating \$17,000,000, produced immediate effect in an advance of a full 1 per cent. to 6½ per cent. in the rate of discount of the Imperial Bank of Germany, and this depressed the London stock market. The 5½ per cent. rate has been in effect since April 23. Barring the 7 per cent. rate that prevailed from Dec. 18, 1906, to Jan. 22, 1907, the 6½ per cent. rate is a high record of late years. The New York stock market was heavy yesterday morning, and fell off in the afternoon, the London influence, combined with continued high money rates, making against prices. The \$30,000,000 money pool was dissolved late Monday, borrowers having to return to the banks for funds, and the banks discourage extension of margin
